- Guidelines doc with floor plan
- “We regularly exhibit both student and class work in our library. We have representation on the University gallery and exhibition committee, which is the formal submission avenue that students take when they wish to organize a show in the University gallery spaces. We receive student applications through that committee, but more often we are approached directly by students and faculty with exhibition proposals. We also promote our exhibition spaces during faculty orientation at the beginning of the school year.” Hillary Webb, systems librarian
